Heavy Cruiser Sent to Turkey in 1929 to Advertise Guns Made in U.S.

BULLETIN

WASHINGTON, Sept. 7.—(UP)—Testimony that the American Armament corporation sold \$800,000 worth of guns to Bolivia while that nation was at war with Paraguay in the Gran Chaco was presented today to the senate munitions committee.

The A. J. Miranda company president told the committee he had an order for an additional \$1,000,000 worth of trench mortars and mortar ammunition.

WASHINGTON, Sept. 7.—(UP)—Testimony that the king of England intervened in negotiations between an American munitions firm and the Polish government in 1932 in behalf of Vickers Ltd., English armament company, was presented today to the senate munitions committee.

Louis L. Driggs, president of the Driggs Ordnance and Engineering company, New York, testified that the king summoned the Polish ambassador to London to a conference about the Driggs firm's efforts to sell arms to Poland.

"The king intervened in behalf of Vickers," Driggs testified.

Sen. James P. Pope, D., Idaho, read a cablegram from Driggs' Polish agent dated January 20, 1932. It said:

"King of Great Britain summoned ambassador in London and intervened in 3-inch or 75 mm. 50 cal. guns on new mobile mount letter December 15, 1932 contract Stop Chief stands high pressure but great difficulty hold situation Stop You must hasten summoning commission to America. Anxiously await your telegram promised for today."

Polish Competitor

Driggs said Vickers was his chief Polish competitor.

The reference to "chief" in the cablegram, Driggs said, was to "the chief of ordnance."

Driggs testified that the king's intervention was "the same kind of gesture that British royalty has been using of late to boost British business."

Sen. Homer T. Bone, D., Wash., asked if Vickers obtained the Polish order.

"Oh no," said Driggs. "Nobody has got it yet."

Immediately after the disclosure, the committee obtained evidence that the navy department authorized a special trip of the heavy cruiser Raleigh to Turkey in March, 1932, to advertise Driggs guns.

Advised Columbia

An American naval officer was charged by the committee earlier today with having advised the government of Columbia in November, 1932, on the best methods of defending itself against threatening Peruvian attacks on the Amazon river.

The officer was Lieut. Comdr. James H. Strong, who reported to the Columbian consul general in New York that "Peru has in her national defense cruisers, a destroyer, submarines and a considerable amount of aircraft, any and all of which would be employed singly or in joint action in attacks upon the west coast of Colombia."

The report was produced by Senator Pope.

Pope said Strong resigned from the navy in February, 1934. Driggs added he thought the officer now was in the employ of the Colombian government.

In a second report to the committee, Strong outlined methods of defending Cartagena, Porto Colombia and Barranquilla.

He advised the consul to place a battery of four 6-inch 30 caliber guns on La Papa Hill for the defense of Cartena. He listed other vantage points for gun batteries.

Driggs said he followed the officers reports with sales letters but got no business.

The same day that Strong wrote his report, the Driggs company submitted estimates to the Colombian consul on more than \$1,000,000 worth of equipment, including guns of the same size as those possessed by Peru.

FRANCE, ITALY  
IN AGREEMENT  
OVER GERMANY

Will Place Million, Half  
Men Against Reich If  
Overt Acts Made

BULLETIN

ROME, Sept. 7.—(UP)—Premier Benito Mussolini has given his pledge to France that Italy will drop any move for revision of the Versailles treaty, it was learned authoritatively today.

(Copyright, 1934, by United Press)

ROME, Sept. 7.—(UP)—Italy and

France have concluded an

agreement which will place

1,500,000 men in the field against

the German Reich the moment the

German government makes an overt

move, it was learned today.

The agreement, which must have the signatures of the little

entente, (Rumania, Czechoslovakia and Yugoslavia) to become effective, provides both for military and political collaboration.

It includes a clause which provides, for the first time in modern history, for naval parity in the Mediterranean, long a source of disagreement between Paris and Rome.

Conclusion of the agreement, hastened, it is believed, by recent events in Germany and Austria, means that Germany will be ringed by a circle of nations able to dictate continental peace, according to many international observers.

The understanding will become official, it was learned when foreign Minister Louis Barthou of France visits Premier Benito Mussolini at the end of the month.

DOCTORS BAFFLED  
BY TEARS OF BLOOD

KANSAS CITY, Mo., Sept. 7.—(UP)—More than two weeks of close observation brought physicians no nearer a solution today to the strange case of Mrs. Eula Santa Maria, 28, whose eyes weep blood once each day.

Leading Kansas City medics who have examined Mrs. Maria say they do not know the cause or the remedy for the malady. They said they had never heard of another case in medical records.

Gulford's scathing pen and oratory figured in journalism and politics here for a score of years. He had been publisher and editor of numerous weeklies and tabloids in the twin cities for 20 years. Recently he had devoted his entire time to writing political gossip for country weeklies, and to radio attacks upon public officials—generally upon Gov. Floyd B. Olson, with whom he had a long standing feud.

The flow of blood, measuring approximately 10 cubic centimeters, generally occurs in the evening.

The flow is stopped by ice packs and medical applications, but is repeated the next day. Headaches accompany the flows.

ANTHONY KIDNAPING  
FOILED BY POLICE

LOS ANGELES, Sept. 7.—(UP)—What police said may have been an attempt to kidnap Earle C. Anthony, radio and automobile executive, was frustrated early today by the alertness of a watchdog on his estate.

The watchman saw a sedan containing four suspicious appearing men and summoned police.

When the officers arrived, the car had disappeared and intensive search of the neighborhood failed to reveal a trace of it.

Police were told the car had been parked near the driveway of the estate for more than two hours.

SIX ARE KILLED BY TROLLEY

SEYMOUR, Conn., Sept. 7.—(UP)—Six persons were killed today in a collision between a trolley and an automobile.

McAdoo indicated he was eager to get back to the west coast for the party convention Sept. 30. He declined to commit himself as to the Sinclair candidacy.

Peter Pawling, the car driver, Salvatore Fama, Stanley Denowski. Three of the victims were identified.

The accident occurred when a light roadster in which the men were riding sideswiped another car and plunged headlong into the trolley. The machine was wrecked and the bodies strewn over the highway.

The accident occurred when some observers that McAdoo's future attitude, however, would be influenced largely by conversations with the president. The latter, who has not expressed himself publicly on Sinclair, has not shown any disfavor of him and his program.

STATE TROOPS  
MOVING INTO  
NEW ORLEANS

Huey Long Moves to Crush  
'Rebellious Spirit' Of  
City Administration

NEW ORLEANS, Sept. 7.—(UP)—The military might of Louisiana was concentrated in New Orleans today as Sen. Huey P. Long moved to crush the "rebellious spirit" of the New Orleans city administration.

By truck, bus and train, troops moved into the city early today. The first contingent arrived at 7 a.m. by truck from Houma, La. The troops were mobilized at Jackson barracks, and there held "in readiness" on orders from Gov. O. K. Allen.

At 10:30 a.m. more than 1,000 officers and men were in the barracks. More troops arrived hourly.

At city hall Mayor T. Semmes Walmsley issued another statement assuring the citizens that the militia would not invade the public's rights.

"No mobilization of troops will deter the righteous people of New Orleans from casting their ballots in the primary election next Tuesday," the mayor said. "The citizens cannot be intimidated."

At his command Mayor Walmsley had 1,500 police. They too, are held in "readiness" for "any development."

The muster of the entire Louisiana national guard was decided upon by Gov. Allen after Senator Long and the legislative committee investigated alleged "graft and corruption" in the New Orleans city administration, demanded "protection for witnesses."

The legislature must confine its official activities to the subjects mentioned in the proclamation. In a special session, the governor is empowered to say just what may be considered.

There was a strong possibility that the legislature would wind up its necessary duties by the end of next week.

Father Threatens  
To Kill Huey Long

BATON ROUGE, La., Sept. 7.—(UP)—Describing Senator Huey Long's political battle as a "mad effort of yours," A. D. Stamatoff of this city today threatened to "personally kill you" if his son, a member of the national guard, is injured during possible trouble.

The telegram made public by Stamatoff, read:

"I understand that you have had the governor order the several national guard units in the state mobilized for duty in New Orleans or elsewhere over the period of the approaching primary.

"My son Thomas Harris Stamatoff is a member of Company A, 156th infantry now mobilizing at Baton Rouge.

"This is to notify you that should any harm or injury come to him as a result of this effort of yours, either by accident or otherwise, I will personally kill you as I would any other mad dog."

The telegraph was sent to the office of the editor of the Saturday Press.

The flow of blood, measuring approximately 10 cubic centimeters, generally occurs in the evening.

The flow is stopped by ice packs and medical applications, but is repeated the next day. Headaches accompany the flows.

FEAR CONTROVERSY  
AT BOURBON PARLEY

SACRAMENTO, Sept. 7.—(UP)—Probability of lengthy controversies at the Democratic party convention here September 29 arose today when an unofficial list of candidates revealed only 37 of the 152 delegates as being supporters of Upton Sinclair, Bourbon gubernatorial nominee.

The convention will have as its main purpose the drawing of an official Democratic party platform. Attempts of the Sinclair forces to have the party endorse upon Gov. Floyd B. Olson, with whom he had a long standing

feud.

THE LATE NEWS FLASHES

NEW YORK, Sept. 7.—(UP)—Eight fans awaiting the gong for the second Ross-McLarren weight title bout were disappointed today for the second time in 24 hours when rain forced postponement of the 15-rounders from tonight until tomorrow night.

McAdoo indicated he was eager to get back to the west coast for the party convention Sept. 30. He declined to commit himself as to the Sinclair candidacy.

Peter Pawling, the car driver, Salvatore Fama, Stanley Denowski. Three of the victims were identified.

The accident occurred when some observers that McAdoo's future attitude, however, would be influenced largely by conversations with the president. The latter, who has not expressed himself publicly on Sinclair, has not shown any disfavor of him and his program.

CHICAGO, Sept. 7.—(UP)—Two plastic surgeons and a law clerk today pleaded guilty before Federal Judge John P. Barnes to indictments charging them with conspiracy to harbor John Dillinger and Homer Van Meter.

The Hoovers then went to the fair grounds where the former president was to present trophies to three winners of 4-H club contests and greet 1,000 4-H club members who assembled at the fair today.

Stoefen's victory was a triumph of power over finesse. From start to finish, the big Californian laid into every shot with all his power and Van Ryn never had a look in.

Van Ryn broke Stoefen's terrific service but once, and that in the second set.

Mr. Hoover made no comments on political subjects. He came here solely to visit the fair and expected to return to Palo Alto later in the day.

Issue Call  
Late Today

Health Association Convening Reports Progress Being Made

SACRAMENTO, Calif., Sept. 7.—(UP)—Delegates to the Annual American Public Health association convention here carried homeward today word of important progress in the battle of medical science against infantile paralysis and tuberculosis among children.

Coming as a much-awaited high spot to the four-day conference of health leaders, Dr. Maurice Brodie, New York City health department research expert, disclosed a series of experiments on 12 children which he said forecast the ultimate immunization of children against infantile paralysis.

Gov. Frank F. Merriam said he probably would issue the formal proclamation later today and that the session would convene at noon Wednesday unless something important should develop meanwhile to necessitate a change.

Of primary importance will be a proposal for a \$24,000,000 bond issue for unemployment relief. This amount is needed, Merriam said, to balance federal appropriations necessary to aid the unemployed during the fall, winter and spring. If adopted by the legislature, the proposal will be placed on the November ballot.

Mechanics of the bond issue, proposed relief measures for delinquent taxpayers, and a definite mortgage foreclosure moratorium will be left to the legislature. Leaders among the lawmakers have been working on the proposals for several days, and if detailed plans are prepared the special session should last no more than a day or two.

The legislature must confine its official activities to the subjects mentioned in the proclamation. In a special session, the governor is empowered to say just what may be considered.

There was a strong possibility that the legislature would wind up its necessary duties by the end of next week.

CLAIM DEMOCRATS  
ADOPT EPIC PLAN

CHICAGO, Sept. 7.—(UP)—The Republican National committee insisted today that, despite details of the opposition, the Democratic party has adopted Upton Sinclair and his "Epic" plan "hook, line and sinker."

A statement from the G. O. P. western campaign headquarters contradicted the assertion of Sen. J. Hamilton Lewis (Dem.) Ill., that Sinclair was nominated for governor of California on the Democratic ticket by migrating Republicans and not Democrats.

"Senator Lewis, the New Deal spokesman, says that President Roosevelt is not going socialist," the Republican statement said. "After the interview between Comptroller Sinclair and President Roosevelt, Sinclair told newspapermen that he and the president saw 'eye to eye'."

Twenty-four persons were booked on various riot and assault charges. Thirty-six others taken in custody during the rioting were released later.

The riot started when a group of 200, separating from a crowd of 4,000 persons surrounding the county welfare building, besieged the welfare offices and demanded increased FERA pay. Police were summoned. Riot leaders, armed with bricks, rocks and hammers fought the officers. Among those arrested were known Communist agitators, police said.

Officers still were unable to verify the report one man had been killed during a five-hour battle in front of the county welfare building. A police truck was said to have accidentally run over one of the rioters, but no body was found.

Concerning reports about financial assistance which organized labor might give the textile strikers, Green said:

## PLAYER GROUP LAUNCHES NEW TRYOUT POLICY

LAGUNA BEACH, Sept. 7.—Designed to not only attract talented material to the Community Players by providing better opportunities for recognition and individual achievements, but also to advertise Laguna Beach as an outstanding center of the Little Theatre movement on the Pacific coast, is the new production policy adopted by the player organization under which the 1934-35 season will be devoted to try-outs of original scripts, inquiries at the play house on Ocean avenue revealed today.

In this connection it was announced that Andor De Soos, well known dramatic director of New York and Hollywood, also formerly connected with the Pasadena Community Players, has been engaged as production director of the local Community Players. Miss Priscilla Fraser, of Pasadena, and Emerald Bay, who succeeded John Hughes, of Long Beach, as production manager, will remain a member of the production staff as assistant to Mr. De Soos.

According to Miss Fraser, the Laguna Beach Community Players is the first organization of its kind in the West to devote its activities to tryouts, such a policy having been adopted by a number of community player groups on the Atlantic seaboard. Tryouts, she added, will not be limited to American predictions, but will extend to foreign original scripts for which authorized translations have been obtained.

## POLICE BATTLE WORKERS IN PHOENIX

With a heavy police guard, an FERA truck carrying workers is shown crossing the picket line at FERA headquarters in Phoenix, Ariz., where workers are striking for higher relief quotas. Workers are crouched in center of truck behind police. Moving of this truck set off the spark which resulted in a riot. A score of officers, FERA workers and agitators were injured before the melee was broken up with tear gas.

## FEDERAL BOARD MOVES TO END UNION STRIKE

(Continued from Page 1)

sider a demand of strike leaders for federal troop intervention to prevent further bloodshed.

Gorman Appears

Gorman appeared at the headquarters of the mediation board promptly at 2 p.m., accompanied by two other members of his special strike committee, Abraham Binns and Emil Rieve. They were received immediately by the board.

Robert Bruce, chairman of the cotton textile industrial relations board, also was on the conference slate as the three-man board pushed peace moves only a few hours after gathering here.

Other late major developments as the fifth day of the strike waned:

1. Five workers injured in Lancaster clash, as outbreaks flare up in Pennsylvania and New England.

2. Flying squadrons of pickets slackened activities in south in face of increased troop activities. Mill reopenings reported from scattered towns.

3. Governor Blackwood of South Carolina reported receiving death threats for calling out national guard.

Strike leaders called for federal troop mobilization to prevent further industrial war.

National guardsmen in the south, where 10 lives were lost in the labor warfare, are being used in behalf of mill owners. Strike Leader Francis J. Gorman charged in deciding to demand federal military intervention.

Gorman's dramatic decision came simultaneously with a move by the mediation board, after its conference here, to confer with leaders in every phase of the textile situation.

Throughout the east at the time the strike was growing in dimensions.

More than 300,000 workers were idle.

Thousands of troops and armed deputies were protecting mills from Alabama to Maine.

Flying squadrons of pickets were threatening to precipitate armed clashes with the mill guards.

Pennsylvania and Massachusetts

sets reported new outbreaks of violence.

The strike was developing in its fifth day financing problems. Strike leaders said the walkout so far has cost the union treasury "a great deal." Estimates were that workers have lost \$2,500,000 in wages since the walkout began.

Frederick Kepke Funeral Is Held

COSTA MESA, Sept. 7.—Funeral services were held yesterday from the Dixon Funeral home for Frederick W. Kepke, 61, who passed away at his Balboa home last Saturday. The Reverend Russell C. Stropup was in charge of the ceremony. Andrew Mandery sang "Beautiful Isle of Somewhere," accompanied by Mrs. Mandery. Burial was made in Westminster Memorial Park.

Palbearers were J. M. Leonard, B. J. Wilson, Charles A. Holt, H. M. Hanson, Theodore Robins, and John Vogle.

Mr. Kepke was well known in and around Balboa, having lived there for the past 20 years, during which time he was in the grocery business. He was born in Wisconsin and had lived in California for the past 25 years.

He is survived by his widow, Bertha, a brother, A. C. Kepke of Madison, Wisconsin, and six sisters, three of which reside in Denver, and three in St. Paul, Minn.

Rebutting the girl's statement to her attorney that Rudy "made several flying trips to see me," the affidavit quoted from one letter as follows:

"I am enclosing 25 cents for a picture of yourself which you can mail to me. Trusting you will give this your close attention and also find it in your heart to answer me personally, not over the radio, as you get paid for that."

# D. A. V. LEADERS GIVE TALKS AT CHAPTER MEET

The resumption of regular schedule was marked by a large and enthusiastic gathering of disabled veterans under the auspices of the Jack Fisher chapter, Disabled American Veterans of the World war, at K. of C. hall Wednesday evening.

John F. Burke, Riverside, past state commander, reviewed important matters to be studied and a progressive program planned for submission at the next convention at Santa Monica. He emphasized the co-operation of all chapters and departments for the advancement of the mandates of this year's conclaves. Dewey Francisco, Riverside, chief of staff of the district, urged a large attendance at the third district picnic at Inglewood City park Sunday, September 16, when many national and state officials will be present. Games and entertainment will be sponsored for all members of the family.

Representatives of the Canadian Legion post of Orange county were present. Russell Munro, present commander of the Canadian post, gave an outline of their activities and pledged support of the D. A. V. chapter in every way possible. Munro issued a cordial invitation to a house warming of that post at K. of C. hall September 21.

The meeting of September 19 will be featured by entertainment and refreshments with an interesting program. Claude Pullen of Newport Harbor Legion post invited all D. A. ## CAN'T TELL IF ELECTED OR NOT

SACRAMENTO, Cal., Sept. 4—(UPI)—Secretary of State Frank C. Jordan bears the distinction of being the only candidate for a major office who cannot find out whether he was nominated or defeated at the primary election.

Inasmuch as he had no opposition on either the Republican or Democratic tickets, Jordan is inclined to believe he was successful. But election officials throughout the state didn't think it necessary to tabulate the Jordan totals.

Consequently, the secretary must await receipt of the official count from county clerks to learn the result of his own candidacy.

## CONVENTION TO BRING 3500 TO FULLERTON

FULLERTON, Sept. 7.—The annual state convention of California Christian Endeavor union will be held in Fullerton next June, according to word brought back from those attending the convention at Alameda the past few days.

The meeting will bring to Fullerton approximately 3500 delegates, besides visitors, it was estimated. Even though the convention was postponed at Alameda from last June, 2500 delegates and as many more visitors attended the recent convention there.

The invitation as presented by Orange county for the convention next year was extremely novel. The Collins twins of Anaheim gave the invitation in song.

From Fullerton, attending, were Clarence Kelly, Orange county president; Mrs. Kelly, Theodore Riehl and Harlan Gowen.

The convention committee visited Fullerton early in the spring and pronounced facilities adequate for caring for the crowds that are anticipated at the annual affair next year.

## WHEEL TAX LAW IS INTRODUCED AT FULLERTON

FULLERTON, Sept. 7.—Mrs. Carrie Ford will be leader of the program at the September 11 meeting of Fullerton Woman's Christian Temperance Union, to be held at the Methodist church all day. Mrs. Cora Hale will preside at the business meeting, which opens at 10 a. m. Miss Alvina Reinhard will be hostess at the luncheon to be served, potluck, at noon. The program will be in the afternoon.

The next meeting, September 19, will be the eighty-third anniversary of the Rebekah degree, which was instituted September 20, 1851. Mrs. Ellen Woodward will be in charge of the program, and Mrs. Lottie Dreyer of the refreshments committee.

## Rebekahs Plan For Anniversary

FULLERTON, Sept. 7.—Members of Fullerton Rebekah lodge played cards after a short formal business meeting at Odd Fellows' temple, Wednesday evening, with Mrs. Harry Hetebrink as chairman of the evening.

The next meeting, September 19,

will be the eighty-third anniversary of the Rebekah degree, which was instituted September 20, 1851.

Mrs. Ellen Woodward will be in charge of the program, and Mrs. Lottie Dreyer of the refreshments committee.

FULLERTON, Sept. 7.—The wheel tax ordinance for Fullerton was given its first reading and approved at an adjourned session of Fullerton city council yesterday morning at the city hall. The matter has been before the council many times, and has been delayed. Fullerton has been extremely lenient with taxing vehicles operating within the city, and during discussion in the past, members have pointed out that it is only as a means of protection of business, and of Fullerton business that is taxed in other cities, that such an ordinance is to be considered.

Details of the ordinance will be worked out later, it was revealed at the meeting yesterday.

That eventually West Chapman or Malvern avenues will be extended westward, and connect with an improved Artesia boulevard was revealed at the meeting yesterday when the proposition authorizing the city engineer, Herman Hiltcher, to work with Emery ranch officials for details of plans was considered. This strip of road is on the north side of the airport. From Magnolia avenue, in Fuller Park, to Malvern or Chapman, the city owns a 60-foot right-of-way through the Emery ranch, reserved from the old Stevens ranches. Although no immediate action on building that road is anticipated, investigation has been started that action may be taken, with plans ready, when such time arrives that the city desires to open the road.

Chamber Asks Delay

Following first reading of the wheel tax ordinance yesterday by Fullerton city councilmen, in an adjourned meeting in the morning, the Fullerton Chamber of Commerce in a meeting at noon urged the city fathers to delay final passage on the ordinance until the directors have had an opportunity to discuss it at an Associated Chamber of Commerce meeting.

Directors of the chamber indicated they felt that such an ordinance in raising trade barriers is not conducive to a community spirit that works for courtly harmony, and in passing the resolution for a delay, asked time to bring it before the county-wide body to get the issue in the open for discussion.

The wheel tax ordinance is designed to cover licensing such businesses as are brought into Fullerton in vehicles not now licensed. A second reading of the ordinance will normally be held at the meeting September 18, unless a delay is granted.

William G. Stedman brought attention of directors yesterday noon the need of full enforcement of the distribution ordinance. He said a full fee should be charged, and in addition, the distributor should be made to place the paper or advertising matter in the container placed in front of houses for such matter.

Vivian Taylor  
Contest Winner

FULLERTON, Sept. 7.—Another silver medal contest was held this week at the Methodist church, under auspices of the contest department of the W. C. T. U., which Mrs. E. M. Cooper is head.

Vivian Taylor won the medal for fourth grade contestants, and Hazel Stone won the medal for the third grade contestants.

WASHINGTON

## CLINKERS—

The story behind the wholesale resignation of the retail coal code authority is a tale flaming with red hot NRA clinkers.

The authority and its 49 children are supported by the National Retail Dealers. That is, salaries and expenses of the code authority here and of the sub-authorities in each of the 48 states and the District of Columbia are contributed by the coalmen themselves.

No one would cry about that, except that the main job of the sub-authorities appears to have been the fixing of prices for their respective states. You can readily see what an inferno can be smoked up when the coal men pay the prices of the boys who fix the prices for them.

Not only that, but \$30,000 (count up how much that is) of the contribution went to a Philadelphia lawyer as a fee for legal advice to the code authority. And NRA insiders say the lawyer is one who disbelieves in the NRA and thinks it is unconstitutional.

FANNING—  
What really fanned the situation into flames was a development in St. Louis.

Loyal NRA men here say that the St. Louis School Board tried to buy some coal and found the price considerably higher. It was told the NRA had ordered the increase. The Attorney General out there investigated, threatened antitrust action and demanded that the coal sub-authority be fired.

The NRA here then got busy and ordered all regional coal code authorities to submit their cost and price data to Washington before permitting new prices to go into effect. The code authority here resigned in protest and it is assumed some of the regional sub-authorities will shortly follow suit.

Thus the NRA is getting coal of fire heaped upon its head for trying to decrease prices, and the code might as well be in the ash-can.

HOOVER—  
There has been a lot of inside talk around here lately that Mr. Hoover will work a line into his "challenge to liberty" saying he does not choose to run in 1936.

Friends who have seen the manuscript swear there is nothing like that in it. They do not believe anything so definite could have been inserted by the ex-President after they saw the manuscript, although they are not sure.

They argue convincingly that Mr. Hoover could not make such a statement for two very good reasons—politeness and politics. It would certainly be impolite, if not indiscreet, for him to assume he is in line for the next Republican nomination. Also, anyone who knows anything about politics will never again repeat the mistake of

Teddy Roosevelt by handcuffing himself too far in advance.

## GAETY—

Those who have recently called at the Hoover Home say he no longer is the hermit of Stanford. He always has guests at luncheon and dinner, and there are usually house guests around. His calling list is formidable and his correspondence heavy.

The ex-President keeps such close tab on affairs in Washington that he frequently knows what is going on before the announcements are made in the newspapers. He has friends (if not agents) here who keep him up to the minute. He has turned down numerous offers to write for magazines.

On top of it all, he has become almost gay because he has no responsibilities for the first time in his life.

## TIMING—

The administration publicity gents hereabouts could show Bobby Jones a few tricks about timing.

Just a day before the resignation of Budget Director Douglas came out, the Treasury issued a statement promising that the September financing would be confined to refinancing old issues. That is the first time the treasury has ever issued any such promises ahead of time. Old Treasury outsiders did not know what to make of it until they noted the Douglas resignation. Then they surmised that the Treasury knew the Douglas resignation was coming and smartly desired to offset any ill effects it might have on the government.

Better yet was the fact that they put Agriculture Secretary Wallace to writing a book as soon as they heard Mr. Hoover was writing one. Both will be published about the same time.

## POLL—

The Literary Digest, which conducted the recent poll on President Roosevelt's popularity, is now secretly conducting a check-up of its poll. It has sent out 10,000 cards, carefully choosing the addresses by states, so they will represent a cross section of opinion.

The same questions are being asked them to see if there has been any change since the last poll.

Early returns from Eastern states are supposed to indicate a small decrease in the Roosevelt support.

Returns will not be made public, but, if they indicate there has been marked change in sentiment since the last poll, a new one will be conducted.

## NOTES—

There are strong undercover efforts afoot to make constitution day a big event. Of course, there is nothing political in it. It just happens that more Republicans are interested in that subject this year. Also more manufacturers.

Few people know it, but the United States has accumulated enough gold to put fractionally all the countries of the world back on the gold standard.

NEW YORK  
By James McMullan

## TRACTABLE—

Top rank conservatives hope to bag two birds with one brick before the textile war is over. They scent the biggest opportunity for a Grand Slam since the New Deal began.

The textile companies are in a strong position. From their angle the strike could hardly have been better timed. It disposes of their surplus inventory problem just when it was about to become acute. They have nothing to lose by sitting tight and they sincerely feel that their incentive to exist is at stake. Further, New York financial contacts of textile concerns stand ready to stiffen their backbones—at the faintest sign of weakening—with the reminder that 40 hours pay for 30 hours work would be suicidal to an industry struggling to stay out of the red. The boys who hold the purse strings don't intend to lose the chance to sock both labor and government interference with business.

Anti-New Deal financial leaders are practically unanimous in believing that labor has bitten off too big a mouthful. Federal relief or no—they are convinced the companies can outlast the strikers. And they're extremely anxious to score decisive triumph over labor at this point.

They figure such a setback would put a permanent crimp in closed shop ambitions and help to stifle the growing strike epidemic. They also dope it that a good stiff jolt on the jaw at this critical juncture would do more than anything else to restore the "employee tractability we must have if business is to function properly."

## IRONY—

At the same time the government's attempt to enforce a compromise 36-hour week with 40-hour pay opens the door for a decisive legal contest on the undesirable—to big business—features of NRA. Leading lawyers are sharpening their quills in preparation. One of Wall Street's outstanding attorneys is quoted by friends as saying "this is the first real chance we've had to go to the mat on NRA constitutionality—and Washington handed it to us on a silver platter."

Keen observers say it would be the height of irony if the first serious dent in NRA armor is made via the textile industry. In-

siders agree it's one of the two which has benefitted most from its code—off being the other. But the idea in high New York circles is to force a showdown regardless of who gets hurt.

## NEVER—

Refusals to comply with NRA dents—simply paid no attention.

dicts are growing bolder. Some months ago the oil code authority ordered a retroactive wage increase for certain classes of employees—the only case in which such a ruling has been retroactive. A great many companies—especially among the smaller indepen-

dents with headquarters in New York received a rather plaintive communication from the code authority inquiring when it intended to obey the order. The company firmly and tersely replied "Never." That happened several weeks ago and there had been no snappy come-back from Washington.

## RATES—

One of the large utility groups is quietly planning to borrow a leaf from the government's lower rate book. Its executives are busy with a plan—not yet ready to be announced—which would make

the use of additional current by consumers much cheaper. The general idea is that any subscriber who exceeds his average monthly quota of current for the past year will be only assessed about half the usual kilowatt hour charge for the extra electricity.

This offer will be tied in with

a campaign to promote the wider use of electric stoves, refrigerators, water heaters and such. The company figures it can afford to give much cheaper service if its power load is more evenly distributed over a 24-hour day.

## CREDITS HEAT WITH INCREASE IN FRUIT PRICE

Extreme heat in the east and middle west the past summer was partially responsible for the rise in orange prices during the valencia season, bringing increased millions into Orange county, Dana King, orange grower of Los Angeles and former sales manager of the California Fruit Growers' exchange, said he believed, in a talk given at the Orange Rotary club yesterday.

King, who has just returned from a 10,000 mile trip across the continent, explained that the keeping qualities of oranges and lemons had enhanced their value to consumers as deciduous fruits were rapidly under hot weather conditions.

Traveling to Florida by the way of Texas, King said he was astounded at the acreage set to grapefruit in the latter state. There have been 350,000 trees set out recently, he said.

In Florida 65 per cent of the citrus crop is sent to market by trucks or by boat, giving the Florida grower an advantage over the California grower, who must still use railroads.

The drought area is appealing, King declared, and cattle are being slaughtered for the skin and bones. Some trepidation is felt by residents of the area because of rising commodity prices. Growers of irrigated districts will be able to obtain high prices for their produce, King stated.

King was accompanied by R. E. Shields, of Lindsay, manager of several packing houses in Tulare county.

## FIREARMS, AIRGUNS, STAMP EXHIBIT IS SLINGSHOTS, BANNED PLANNED AT FAR

LAGUNA BEACH, Sept. 7.—Chief of Police Abe Johnson, who directed his officers to take into custody youths found shooting firearms, airguns and slingshots within the city limits, such practice being in violation of a city ordinance. In this connection, several complaints have been filed by residents whose safety have been endangered by stray missiles fired from guns in the hands of the offending youths.

Included among alleged offenders brought to police headquarters for questioning, according to the police chief, were two young men, Henry Jardine, 22, of 1138 Lund street, Pasadena, and T. Grant Cavenna, 22, of 169 East Calaveras, Altadena, who, it was alleged, were staging target practice with small caliber rifles in a residential district. The matter was reported to the police by residents in the neighborhood.

The wife of a well known business man a few days ago was struck in the back of the neck by a BB lead pellet fired either from an airgun or a sling shot, in which connection two minors are being questioned by the police, it was reported.

The exhibition will be sponsored by the Federated Philatelic Clubs of Southern California, comprising stamp clubs in Los Angeles, Santa Monica, Ventura, San Diego, Pasadena, Glendale and Pomona, and by the Pomona Valley Stamp club in particular.

Both United States and foreign stamps will be shown, featuring all periods from the earliest issues to the latest, including many fine airmail stamps and covers. Collectors from all parts of Southern California will enter exhibits this year, making the exhibition even better than the fine show of last year.

The exhibition will be found on the second floor of the Fine Arts building.

Millions in Silver Pour Into S. F. Mint

These Ohioans Broke East's Grip on Bridge Trophy

Out of the midwest came this quartet of bridge players to break the 16-year grip which the east has maintained on the American Bridge League's team-of-four trophy since it first was put up for competition. They defeated an expert combination of easterners in the finals of the match in New York by scintillating play. Left to right, the victors are Charles H. Porter and William F. Hopkins of Cincinnati, and Jeff Glick and Aaron Frank of Cleveland.

Extra! Mayor Wins in Close Race!

If Mayor La Guardia of New York was puffing at the end of the fat man's race it was merely because he had a big black cigar in his mouth. That's how easy it was for him to beat his aldermen competitors at their annual outing on Travers Island. You see him (second from right) stepping gingerly over the finish line.

\$26,000,000 Back Pay to Teachers

The neat sum of \$26,000,000 was starting into circulation as this throng jammed a Chicago street. The crowd is part of the army of 17,000 Chicago school teachers lined up to draw seven months' pay, which the city was unable to give them until the RFC loaned the money to the Board of Education. A wave of buying boomed business in city stores and creditors rejoiced as millions in debts were paid by the happy instructors.

He Rules Persia With Iron Hand

High honors were tendered Mirza Reza Pahlevi, shah of Persia, when he paid a formal visit recently to Mustapha Kemal, ruler of the Turks, at Tschankaya, and was photographed in the two poses shown here. Reza Khan, as he has become known, seized the Persian throne in 1925 and has put down rebellions with an iron hand and laid the foundation of a stable state. His defiance of Britain on oil concessions aroused world interest last winter. In his youth, this colorful monarch was a member of the Cossack division maintained in Teheran by the Russian czar as a bodyguard for the shah.

Midwest center of the government's drought cattle program, this range near Delaware, O., is the second largest in the country in number of cattle, with more than 20,000 being fed here, fattened before being butchered for distribution among Ohio's poor relief families. Cattle are shipped from the drought-stricken areas of the Dakotas, Nebraska, Texas, Arizona, and New Mexico to this range, which borders the Olentangy river, and from it every day go 100 to 750 to the slaughter houses. The range will be operated for the next year, according to present plans. The hundreds of cattle to be seen in this picture already show the benefits of their regular rations of baled hay.

# THE TINYMITES

STORY BY HAL COCHRAN - PICTURES BY KING

"Gee whiz," said Duncy. "I was scared. I never thought that I'd be spared when Jumbo whirled me in the air, but here I am again."

"Yes, and you're lucky as can be," snapped Dotty. "It just seems to be that you deserve a scare, for tricks that you pull now and then."

"Why don't you thank the big giraffe for saving you? Don't stand and laugh!" Then Duncy did, and shortly Mister Hunter cried, "Look here!"

"You tots will need a place to snooze, and there is not much time to lose. You'd best put on your thinking caps, 'cause night is drawing near."

"How can we think?" said Goldy.

# SAYS REGULAR EXAMINATIONS AID TO HEALTH

Periodic health examinations to discover incipient diseases before they become serious, care of the teeth, maintenance of normal weight and regular normal exercise were urged as measures for prolonging life by Dr. Emmett Raitt, speaking yesterday noon before the Santa Ana Lions club at James' cafe.

Health examinations once a year and dental examinations twice a year were suggested as means of longevity, as the speaker pointed out that presidents of the United States in the 18th century lived to be 10 years older, on the average, than those of the 19th century.

Better food and sanitary conditions and medical science in the care of babies has raised the life expectancy of boys from 54 to 55 years the past 15 years, and of girls from 57 to 68 years, the speaker said, but diseases of adults continue to take a heavy toll. In the order of their toll, he listed heart disease, apoplexy, cancer, nephritis, diabetes, crosis of the liver, pernicious anemia and bronchial pneumonia.

Cancer has increased 25 per cent in recent years, Dr. Raitt said, and can be cured if diagnosed early enough. It is not inherited, he added, and the public should get over the idea that cancer is due to inherited traits. A total of 180,000 people in the United States died of cancer while 80,000 were dying in the war, he declared. The X-ray has been a boon to mankind in finding internal cancers, he added.

"Typhoid has practically disappeared and diphtheria can be entirely controlled," the speaker said.

## BEACH FRONT ENDANGERED BY HEAVY SEAS

The entire beach front at West Newport, from Thirty-sixth street to Forty-eighth street, is endangered from the heavy seas that have battered the coast line for the past two weeks. Pictured here is the perilous region, looking west from Thirty-sixth street. Before these houses formerly stretched a 100-foot beach. Seashore drive began breaking up last night under the battering of the surf at high tide. Pictured below is a home at Thirty-eighth street, left on its unprotected pilings, showing part of the damage done to the street in the rear.

**Itinerant Gets Third Order To Take Departure**

The charm of Orange county must have a strong hold on Andrew Ziegler, 54, Itinerant, who has been asked to leave the country on court orders three times in the past four months.

When haled into the Anaheim justice court yesterday on a vagrancy charge, Judge Charles Kuchel gave him a 30-day suspended sentence with the provision that he leave the county at once.

On July 18, Judge J. G. Mitchell gave him a 10-day suspended sentence on the same charge and also ordered him to leave the county. The same episode was enacted the first time on June 20, when Ziegler appeared before Judge Mitchell and was asked to leave this vicinity.

**Picnics and Reunions**

The annual official fall picnic reunion for former residents of Michigan will be held in Sycamore Grove park, Los Angeles, Saturday, September 15. The county registers will be open all day. Hot coffee will be served and silk badges supplied. The program will follow the dinner hour and will include music and addressess.

## HEAVY DAMAGE RESULTS FROM SMASHING SEA

The sea in an angry mood continued to pound savagely at the Southern California coast line last night and today, eating away more and more valuable property at Newport-Balboa, continuing damage to municipal piers in Long Beach, and battering relentlessly as far north as Malibu.

West Newport continues to be the danger zone in the war of the elements against man. Here thousands of dollars of damage has been done, and many fine beach homes are periled by the continuing surf.

Seashore drive for a distance of several blocks succumbed last night to the battering it has been receiving for the past two weeks, beginning to break up as sections of the exposed and undermined asphalt dropped into the sea. Pacific Electric tracks are on the skirmish line, being separated from the wild seas by only a narrow strip of road, where once was a hundred-foot strip of beach. At times last night they were completely covered by the tides.

Homes all along the exposed area are staggering dangerously on their stripped and exposed pilings, as the breakers continued to smash with devastating force against them. A crew of about 40 men labored valiantly yesterday and today in an effort to prevent further damage.

Barricades of concrete are being placed at street ends. The board walk toward Thirtieth street, sagging dangerously, is being bolstered with sandbags, and workmen are strengthening exposed pilings under homes, moving some out of the danger zone, and policing the district against danger to the swarms of sightseers jamming the street.

Additional damage amounting to approximately \$20,000 was done to the Rainbow pier at Long Beach yesterday, following the collapse of the Pine avenue pier. Debris from the wrecked pier ripped a 40 foot hole in the Rainbow structure, with more than 180 feet of the understructure loosened and damaged.

Dr. Bruno Gutenberg, geophysicist of the Carnegie Institution Seismological Laboratory and Cal-Tech, advanced three possible reasons for the phenomenon last night. He said:

"Three conditions could cause such wave action on the shores. These are a sudden shift in big oceanic currents, some upheaval on the oceanic floor, or a big storm out on the ocean.

### MUSICIANS GIVE PROGRAM FOR CLUB

Breakfast club members were entertained with several musical selections in their regular meeting at James' cafe yesterday. Two guests, Mrs. Adeline Harrell of Santa Ana, and Miss Adeline Schrott of Anaheim, and Jerry Hall of the club, appeared on the weekly program. Miss Schrott and Hall presented a group of vocal solos, while Mrs. Harrell entertained with numbers on the piano.

### CRANKCASE STOLEN

An automobile crank case valued at \$6 was stolen from the garage of Mrs. E. L. Bondley, 1068 West First street, some time between August 29 and September 5, it was reported to police yesterday.

Three Long Beach men who were arrested as suspects in the hijacking of a truck and cargo belonging to the Holly Sugar company, Jack Cassidy, 32, Paul F. Roper, 40, and George W. McGee, 46, were released by the sheriff's office today.

Roper is said to be a former employee of the sugar company while the other two men have former police records, according to officers. They were arrested by police and sheriff's officers through the tracing of the license number of their car.

Investigation is still being made concerning the loss of 276 sacks of sugar from a company truck which was stolen on South Main street on August 30. It is believed that the sugar may have been taken for use in a distillery, since it would be difficult to sell it in legitimate retail channels.

## RELIEF COSTS IN CALIFORNIA ABOVE AVERAGE

Comparative relief costs per family for California, in relation to the entire United States for the months of January, February and March of 1934, have been received by J. K. McDonald, chairman of the Orange county SERA committee, in a report from Olive Gardiner Burns, state director of family welfare, showing California's relief costs per family to be considerably above the United States average.

During February, it is reported, California had the highest average of any state west of the Mississippi. Relief costs per family in this state were \$19.09. Minnesota had the next highest average in February with \$17.84. The United States average for the same month was \$16.87.

Minnesota had the highest average west of the Mississippi in January, with relief costs per family of \$20.78. California was in third place with \$17.93. The United States average was \$16.71. South Dakota took the lead during March, with average costs of \$25.82, compared with the United States average of \$17.93. California was in second place with \$20.19.

In the east, where relief costs are higher because of the winter season, and the higher price of many foodstuffs, New York held the highest average for all three

months, with \$32.16 in January, \$33.19 in February, and \$37.20 in March.

## Annual Boy Scout Court Of Honor Arranged

SEPTEMBER 21

Arrangements for the annual court of honor of Boy Scouts, with troop members all over the county participating, were virtually completed today, following announcement by Harrison White, chief Scout executive, that Santa Ana's spacious bowl has been secured for the special program September 21.

Five new Eagle Scouts will be presented with their badges in exercises being planned by W. H. Spurgeon, of Santa Ana, who is committee chairman of the county council. Judge H. G. Ames of the superior court will be introduced as a new member of the council.

The public is invited to attend the program. A huge campfire will be built in the bowl, and songs and students presented by the various troops. The program has been set for 7:30 o'clock Friday evening, September 21.

Eagle Scouts to be honored are Carl J. Schweiss, assistant Scoutmaster of troop No. 74, Anaheim, and two other members of the Anaheim group; Martin Douglas and Howard Ivan Lukens; Milton Smith, of Santa Ana troop No. 21 and William Douchard, troop No. 31, Tustin.

Postpone Picnic  
Of SERA Workers

The county-wide picnic and entertainment for all SERA workers in the county, scheduled to be held next Sunday, has been postponed. It was announced today by Fred P. Jayne, manager of the professional, technical and women workers' division of the county SERA, who is in charge of arrangements for the event.

Jayne said the reason for the postponement is because Terrance Halloran, new county director of SERA, will be in Santa Barbara over the week end completing arrangements to bring his family to Santa Ana, and will not be able to attend the event if it is held this Sunday. Halloran was scheduled to be the main speaker at the picnic.

Episcopal Church  
Arranges Services

The Rev. W. J. Hatter, rector of the Church of the Messiah, announced today that the regular Sunday services of the church will be resumed Sunday at 7:30 a.m. and 11 a.m.

Sunday school classes will not begin Sunday, as announced in the parochial letter recently posted, but will be resumed the following Sunday, September 16, according to the Rev. Mr. Hatter, who hopes to welcome all the children at the regular time of 9:30 a.m.

Bandit Gets  
5 Cents In  
L. B. Holdup

Through the presence of mind of a Laguna Beach hotel clerk, the first holdup at Laguna Beach in recent years was frustrated early today and the bandit forced to flee after securing five cents in loot.

George Smith, clerk in the La-guna Beach hotel, was startled at 2 a.m. when a roughly dressed man of about 35 years poked a gun into his face and said, "Hand over your cash!"

Smith informed the man that no cash was kept in the hotel lobby or office but the bandit thought differently and decided to look Smith in the elevator while he made a personal search of the premises. He first took five cents from the clerk and then shoved him into the elevator.

Smith reached the "up" switch and got out of range of the bandit before the doors could be locked, and notified police from an upstairs telephone. Before officers could arrive, however, the bandit had disappeared, probably in the car of a confederate, according to authorities.

The bandit spoke perfect English, was wearing a dark suit and had a dark mustache, Smith said.

Wayne Clark Gets  
Commerce Position  
In South America

Friends of Dr. Wayne G. Clark, former Santa Anaan, who attended high school here and later graduated from Stanford university, will be interested to learn of his appointment by the United States government to foreign commerce work in South America, where he will be stationed in Buenos Aires, Argentina.

Following graduation from Stanford, Dr. Clark entered the foreign commerce department at Washington, D. C., and later was transferred to Johannesburg, South Africa, where he remained four years. Returning to the United States last year, he established an office in Philadelphia.

News of Dr. Clark's latest appointment came to The Register in a letter from Mrs. Clark Blatz, 445 South Pilgrim street, in Stockton, Cal. She reports the former Santa Anaan will be leaving for his new post within the next few days.

YACHTSMEN TO  
PLAN REGATTA

Intrepid and daring, one of Santa Anas claimants to fame is Miss Barbara Charles, the junior college co-ed who is now in training to set a record this month of being the first person to make a parachute landing on Tunnel airport, south of Mt. Whitney and the highest airfield on the northern hemisphere.

Miss Charles is schooling herself for the hazardous feat of jumping in high altitudes by making practice jumps at Lone Pines airport and expects to make her record attempt in about two weeks.

She first took up jumping several months ago after making a 'chute jump at Eddie Martin's airport on her first flight aloft.

Recently Miss Charles rode a motorcycle to the Lone Pines airport and essayed to make a 16,000 foot drop into the seldom used landing field. Wind currents were tricky however, and the 'chute took the girl right into the center of Lone Pines.

The next day she went up 10,000 feet again and jumped from the plane. Something went amiss and her big 28-foot parachute refused to open. Miss Charles finally opened up a smaller emergency 'chute and came down safely.

September events listed by Secretary Leon Heseman include the staff commodore's grudge sailing race Sunday, and on September 29 a special program to precede the annual presentation of trophies at the clubhouse.

Miss Evelyn Furtach, daughter of Mr. and Mrs. George C. Furtach, 181 North Lyon street, became the bride of Mr. Ojeda, son of Mr. and Mrs. J. R. Ojeda, West Eighth street, at a quiet ceremony. For the occasion, she wore a dark blue ensemble with purse, hat, gloves and other costume details matching. Emphasizing the white trimming of her suit was a corsage bouquet of white gardenias and sweet peas. Miss Marion Leahy of Tustin, as maid of honor, wore an identical corsage with her pretty black and white frock. Charles Marshall of Tustin was best man.

The young people spent their honeymoon in Santa Barbara, Santa Maria and in Beverly Hills with the bride's uncle and aunt, Mr. and Mrs. R. F. Herkner.

Mr. Ojeda has resumed his duties at Nichols' Dollar store where he is assistant manager. He is a graduate of Santa Ana high school. His bride was graduated from Tustin union high school with distinction, having been acclaimed the most outstanding girl athlete in the school's history. In 1932, the summer following the completion of her high school work, she took part in the Olympic games at Los Angeles, where she was a member of the girls' 400 meter relay team which broke the world's record. She participated in the 1936 Olympic games at Berlin, Germany.

She is Pacific coast champion of the 100 yard, 100 meter and 200 meter dashes. Her high school work was followed by studies at Santa Ana junior college.

Birthday Anniversaries  
Occasion Pioneer  
Club Party

Meeting yesterday afternoon with Mrs. Johanna Cole, 711 North Main street, Pioneer club members of Sedgwick W. R. C. carried out plans for a happy celebration of the ninetieth birthday anniversary of Mrs. Elizabeth McLeod.

The briefest possible time was given to the business session conducted by Mrs. Emma Mosbahn, and the remainder of the afternoon was social. Sharing guest honor with Mrs. McLeod were Mrs. Hannah Huntington and Mrs. Cassie Ferguson, both of whom were August-born as was Mrs. McLeod. To each was presented a birthday book filled with inspiring thoughts for each day of the year. Members then autographed the three books, each placing her name opposite her own birth date.

Mrs. Cole had decked her home with varicolored flowers, but the loveliest effect was maintained in the dining room to which guests were invited for the birthday feasting. Flower garlanded tables were lighted by candles arranged in celophane holders in flower hues. Favors were small celophane baskets to match the candle holders, and filled with sweetmeats. The charming effect was wrought by Mrs. Elizabeth Kirkhead, official "trailer" of the Pioneer club, and a true artist in table and party appointments.

Mrs. Cole assisted by her daughter, daughters-in-law and granddaughter, Mrs. Myrtle Wakeham, Mrs. Ralph Cole, Mrs. George Cole and Miss Geraldine Cole, served an inviting menu of chicken salad, hot rolls and coffee followed by ice cream and individual birthday cakes decorated with flowers in harmony with the three large cakes for the birthday guests.

Mrs. Mosbahn was toastmistress and in a little talk which glowed with genial humor, told of the club's pride in these members who had traveled such a distance on life's highway, and wished them peace and happiness in the years yet to come.

Refreshments of ice cream and cake were served. Miss Warner was presented with a gift from members of the troop.

Another talk of interest was that of Mrs. Ida Deck, charter member present after several years of residence in Batten Willow. Completing the series of congratulatory talks from various members were the showers of flowers and birthday cards for the honor guests.

Pioneer club will hold its next meeting on Thursday afternoon, October 4, with Mrs. Henry Diers, 610 North Main street.

Present yesterday with the hostess, Mrs. Cole, the three honored members, Mrs. McLeod, Mrs. Huntington and Mrs. Ferguson, were Mesdames Emma Mosbahn, Fanny Cunningham, Marietta Phillips, Margaret Culver, Rosa Diers, Ida Deck, Ella Wilson, Emma Lieber, Anne Clinton West, Martha Ritchey, Abby Vandernast, Sarah Alford, Kate Hendricks, Helen Kellogg Aubin and Elizabeth Kirkhead.

In calling attention to the annual one-act playwriting contest of which the association is sponsor, Miss Owens asked that the Workshop be privileged to present the plays submitted, in working up a series of programs to be given occasionally for The Barn meetings. She also announced that the deadline on the original plays had been set for January 8.

Mrs. Wendell Finley and her committee were hosts during the social hour and served light refreshments as members lingered to discuss the interesting program, and equally interesting plans for the future.

## Order of Beaumont

Preceding individual meetings of Social Order of Beaumont and Santa Ana Commandery Wednesday night in Masonic temple, a joint dinner was held by the two groups. In charge of this pleasant feature were Mesdames J. H. Shaw and J. Hancock.

Mrs. Hancock, first vice president of Beaumont, conducted business matters for the organization in the absence of the president, Mrs. A. R. Muller. Memorial services were held for Mrs. William Toohey of Denver, first supreme chaplain and honorary past supreme worthy president; and for Mrs. T. W. Mair of this city.

Two special guests at the meeting were Mrs. Williams and Mrs. John Wesel of Long Beach.

Quiet Ceremony Has

Setting in Orange

A quiet wedding of last evening was that of Miss Alice M. Porter, attractive daughter of Mrs. Ella E. Porter of Glendale, and Delmar Snyder Jr., of Orange, son of Mr. and Mrs. Delmar Snyder of Anaheim, the ceremony taking place at the manse of the Orange Presbyterian church with the pastor, Dr. Robert Burns McAulay, reading the service.

The bride wore a dark blue ensemble with harmonizing accessories and a corsage of white gardenias. Following the ceremony, a wedding supper was served to the small group of relatives and friends in the home which the young couple have established at Mission Courts, Orange.

The bride is a graduate of Glendale schools and the bridegroom, employed in the Orange Western Supply company, came to California from Colorado four years ago with his parents.

In a nearby cabin, Mrs. Mary Thrasher and her daughter, Miss Hazel Thrasher, mother and sister of Mrs. Ashmore, have been equally hospitable, entertaining among other friends, Miss Esther Ridout, who like Miss Thrasher is a member of the Julia Lathrop school staff. Miss Lella Thrasher and Miss Sarah Thrasher have spent the summer on an eastern trip concluded by their return this week to their home, 709 Oak street. They visited Chicago and the exposition, and on their homeward journey saw Yellowstone National park, traveling on through Oregon and following the coast line southward. Miss Lella Thrasher also will resume teaching at Julia Lathrop Junior High school.

They have entertained various

guests during the summer, among the more recent ones being Dr. and Mrs. L. M. Young who were there over the week end. Dr. Young took over the practice of the late Dr. Frank Ashmore, and he and Mrs. Young have been occupying the Ashmore home for the summer months. Mrs. F. E. Farnsworth spent two weeks with Mrs. Ashmore.

## CUT WEEDS ON MIDWAY CITY VACANT LOTS

MIDWAY CITY, Sept. 7.—A called meeting of the Midway-City Chamber of Commerce was held Tuesday evening and several topics of importance discussed.

Among those was the entertainment of the Associated Chambers of Commerce of the county on the last Tuesday in September, when the Midway City chamber will act as host, the dinner to be served by the local Woman's club. Claude Harlow, president of the chamber, is head of the entertainment committee for the evening.

The offer of Walter Hill to put in mowing machines to cut weeds on all vacant lots was considered and accepted. As many local lot owners do not reside here, the growth of weeds is a continuous menace and fire hazard. A committee composed of Claude Harlow, Robert Hazard and W. E. Moore were appointed to take the necessary steps to see this work completed.

A letter was ordered written to the Highway division asking for "Slow" signs for Midway City to cut down on the speeding which is proving a menace, especially with the opening of school at hand and children congregating at bus stops.

A letter was read from the state district engineer, in response to one sent by the Midway City chamber asking that the work on the west apt of First street be completed as the unimproved portion was in dangerous condition for traffic. The letter stated that the street will be completed at once, and the work has already commenced.

From Greeley, Colorado, Mr. and Mrs. H. Bardwell, 200 Pacific avenue, Tustin, returned to their California home Monday.

On their way to Greeley, Colorado, where they visited Mr. Bardwell's brother and sister, the Tustin residents stopped off at Zion National park and Bryce canyon, and in Idaho Falls visited relatives who took them to Yellowstone National park.

From Greeley, the Bardwells visited Mrs. Bardwell's old time schoolmates in Sterling, Colorado, and then motored to Denver to see Mrs. Bardwell's sister.

The return trip was made via the southern route, the highlight of which was a visit to the Grand canyon.

### Mother Guards the Family's Health

When you see a father working happily to support his family, and making a good job of it—when you see healthy ruddy-cheeked children enjoying their play—you can be sure there is a mother in that home who knows how to feed her family.

Whatever else she gives them, they probably get at least one meal a day of Shredded Wheat, milk and fruit!

Shredded Wheat is whole wheat—nothing added—nothing taken away—in most digestible form. It contains the carbohydrates you need for energy; the proteins you need for tissue building; the mineral salts you need for bone structure; the vitamins that help you resist disease; and bran to keep you regular. *Nature might have made a better food than wheat—but she didn't!*

Eat plenty of Shredded Wheat—it's good for you—will pay you big dividends in health and happiness!

"Goodness knows I'm as much in favor of being healthy as the next one. (I've got more blue ribbons from Baby Shows than you could shake a stick at!) ... but I draw the line at being plied with proteins and carbohydrates for breakfast, vitamins for lunch, and gelatose and casein for dinner. I like good FOOD, and if it happens to be wholesome, too, why, that's mother's business. I can't be expected to be bothered with such grown-up nonsense at MY age! One concession I will make, however, I'll eat all the Weber's Bread they'll give me. I like it. And I hear it contains THREE TIMES the amount of calcium, which builds strong bones and teeth, iron oxide, phosphoric pentoxide—in fact the whole 8 vital elements contained in milk they're so set on having me full of."

Here are the Features of Weber's Bread

... a good, wheat-y, sweet-as-a-nut FLAVOR.  
... a soft, fluffy, smooth-as-cream TEXTURE.  
... crust that fairly crackles with GOODNESS.  
... superior toasting QUALITIES.

in short—

Weber's Bread has it!

### FACT STORIES WILL BE TOLD BY DON WILKIE

In response to hundreds of requests, Capt. Don Wilkie, formerly an agent of the U. S. Secret Service and a world authority on crime will relate one of his most interesting fact-stories in his "In the Crimelight" series on KREG tonight at 7:30. This new series of broadcasts, sponsored by the Orange County Boosters, will include more interesting facts and thrills than ever, it was stated.

Tonight's broadcast is titled "The Murder of Joe Walker, U. S. Secret Service Agent," and, according to the hundreds of listeners comprising a portion of Captain Wilkie's large audience of previous broadcasts, this true story is one of his most interesting experiences. The locale is Durango, Colorado and the story is that of a murder in a coal mine whose operators were suspected of mining coal from government property. Circumstances of the crime and how the case ended will be told in detail by Captain Wilkie in his interesting, informal and straightforward manner which has won thousands of interested listeners and friends for him.

A sequel story to tonight's broadcast is scheduled for Monday at 7:30 p. m. on KREG, and subsequent broadcasts of the new series will be made from the local station exclusively each Monday and Friday at the same hour.

### NOVEL FEATURE ON KREG THIS EVENING

A new and novel feature will be included in a new program to be presented for the first time by Lewin's Shoe Store tonight at 7:15 on KREG, when a patron of Lewin's will tell frankly and in her own words why she patronizes Lewin's. A group of the latest popular song releases of the month will also be featured as played by one of the nation's leading dance orchestras.

It was stressed that Mrs. Evelyn Fortney, who will speak briefly, is a regular customer of Lewin's and is not a radio artist or "stooge" in any way at all. It is believed that listeners will find much of interest in the few words to be said, it was stated by program officials, as they will be given of her own volition and interest.

The program will also announce a few of the outstanding values obtainable now at Lewin's, in Santa Ana.

### "HEALTHY FEET" IS TOPIC OF PROGRAM

"Healthy Feet," a program broadcast as an extension of the service given patrons and friends of the Dr. A. Reed Shoe Store in Santa Ana, will feature an educational and non-commercial talk on "Correct Shoe-Fitting" by Richard A. Bradford, foot-comfort expert and proprietor of the Dr. A. Reed Shoe Store tonight at 7:45 on KREG, in addition to a musical program.

It was announced that tonight's educational talk will include reasons why correct shoe-fitting is essential to health and comfort and why such foot discomfort results from incorrectly fitted shoes. Mr. Bradford's experience of over 25 years of specializing in correctly fitting shoes makes him well qualified to speak on this important subject, it was stated. "The importance of correct shoes cannot be over-emphasized," Mr. Bradford said. "In many cases the feet of one person are not alike and require individual fitting. In my talk tonight I am not going to ask my listeners to buy Dr. A. Reed Shoes nor refer to the Dr. A. Reed Store. I wish to inform all who listen of the care to be exercised in having their shoes correctly fitted," he said.

### KREG NOTES

Another in the series of "Romance Under the Water" talks is scheduled on KREG for 11 a. m. tomorrow, bearing the unusual sub-title: "Personality of Fish." These talks are prepared by Frank T. Bell, U. S. Commissioner of Fisheries.

## TWO ATTITUDES CONTRASTED

Two methods of meeting the same condition are illustrated by the action taken by the president of the Chamber of Commerce at Seal Beach on the one hand, and the president of the Chamber of Commerce of Newport on the other. The subject over which these two organizations differ is that of the conduct of gambling in their respective communities. In Newport, the Chamber of Commerce, headed by A. B. Rousseau, presented a petition signed by something over 300 petitioners requesting the city council to take action in closing these places.

The Chamber of Commerce body, in presenting their arguments for this request, urged it not on moral but on business grounds. It was injuring Newport Beach as a whole. It takes the money from the pockets of the people who come there to spend it with the rooming houses, the restaurants and the legitimate merchants and places it in the hands of the gambling fraternities, who always win in the long run and who cause the "suckers" to lose in the long run. When these people gamble their money away they have to cut their vacations short, and the legitimate tradesman is left to hold the sack.

More than this, the president of the Chamber of Commerce urges that it cheapens the whole city. Substantial people of means and family do not like to purchase property and establish their summer homes in the midst of a smaller or larger group whose method of living is through the criminal practice of getting the money from the unwary through one means and another, and give nothing in return for it. As these civic leaders point out, those whom that kind of fraternity aid are not the stable merchants, rooming places and realtors, but only the cheap hot dog stands and proprietors of these gambling institutions themselves. So in the interest of building up a valuable and important recreational headquarters at Newport Beach, this civic body asks for aid to free itself from these parasites of society who not only do not work but contribute nothing to the general welfare, and rob the people of their hard-earned money.

On the other hand, now comes the president of the Chamber of Commerce of Seal Beach, and he asks that the city council shall enjoin the sheriff of the county from endeavoring to enforce the state laws against the very class that the Chamber of Commerce of Newport Beach wants to close up. Doesn't this appear strange? Why the difference? The object of each of these men is business for his community.

Newport Beach is looking toward the permanent, toward the years to come, toward the stable and substantial. It wants to sell homes to the people whose primary interest is the homes. On the other hand, Seal Beach is after the temporary crowd. It's a Coney Island program. They are not seeking the class of people, evidently, that Newport Beach is after. By permitting these games of chance to steal the money from the pockets of the people they are taking money not out of the residents of Seal Beach, nor from those who are coming there for vacations, but only from those there for the night. The robbery through the gambling route they want to continue through the hours of the evening, and have the "house" clean them as far as it can, since they are going to their homes anyhow.

It isn't the boarding house, or the rooming places, or the restaurants in Seal Beach that are injured. It is the business men and homes of the other communities, in the main. And what interest is that to those who want money and don't care how they get it?

An attempt has been made to enjoin the sheriff. A judge sitting on the bench here in Santa Ana has declared that it cannot be legally done, but evidently there is considerable money behind this project. The gamblers are pretty well organized in Seal Beach. If they can tie up the sheriff, the operators can continue to mullet the people. We doubt if this can be done legally. In any case, it presents to the public of Orange county two methods of business approach to gambling, and you can take your side with each or neither.

## WAR PROFITS GAME EXPOSED BY SENATE COMMITTEE

While there is not a complete statement through the press dispatches of all of the details that are coming out in the senate munitions investigating committee, there is enough appearing to show that the whole proposition of submarine building, munition making and armament is honey-combed with crookedness and corruption, and that certain great financial interests connected with munition manufacturers have an international conspiracy by which, through a combination of intrigue and bribery, they keep a steady flow of gold into their own coffers regardless of the death and destruction it reeks upon the peoples of the earth.

In the testimony that came out yesterday there was evidence that indicated bribery of Frenchmen by the Electric Boat Corporation. This same organization, through lobbying, it was declared, obtained the election of "friendly congressmen" to the House Rules Committee.

This same corporation, through its agent in Japan, employed a Japanese admiral to get orders for them. Again, that this same corporation violated America's neutrality by supplying motor boats to Italy prior to our entering the war. Correspondence was submitted in which it was shown that the vice president of the corporation boasted to the president of his success in getting congressmen in this position. The reference was made to two men in particular. They were Joseph W. Martin Jr. of Massachusetts and Franklin W. Fort of New Jersey. Further, John Q. Tilson, former Republican House leader from Connecticut, while he was Assistant Secretary of the Navy,

in 1930 urged an award of contract to this same corporation. The letter in which this was related declared that the company would receive "its reasonable share of the contracts."

Two elements seem to be working strongly on behalf of this "dirty" money—one is venality, the other is ignorance of what is behind it all. The ignorance is now being dissipated. Venality will be confronted by the victims of the holocaust of war, and it will stand naked before the bar of public opinion.

We wish the sons of army age and the mothers would read the testimony that is being brought forth in the committee. The intelligence which would come to the young men and the moral indignation that would come to the mothers of the world, when they realized that in the planning and the operation of war, a gang of pirates was largely manipulating the entire program, a gang perfectly willing that the best youth of all lands should be destroyed, providing their profits continued, would have a salutary effect on peace in the future.

## TEXTILE STRIKE CALLS FOR STUDY

The strike in the textile industries is reaching terrible proportions. We believe that its leaders have taken an untenable position, and so untenable that it necessarily will place the organization squarely against organized society. The sympathy of the public very frequently is with strikers when they start out with just reasons. As long as the strike, then, is conducted in harmony with law and order and in recognition of the rights of the man who wants to work, as well as the man who wants to strike, the sentiment of the public usually continues to favor the strikers.

A union cannot win, as a rule, with public sentiment opposed to it. The declaration that the strike will be continued until the union is recognized in every mill and becomes the dominant power is not one in which the strikers will receive the support of the public. In this they are placing their own interpretation upon Section 7-A of the National Recovery Act.

Surely, if their interpretation is correct, to proceed by orderly methods so as to insure the protection and support of the government which is trying to enforce the N. R. A. would be the wisest method. In fact, this method would be their only hope of winning. Of course it may get infinitely more serious than it now is, the textile industry involves hundreds of thousands of workers. It also covers considerable area of the eastern section of our country. If other unions join in sympathetic strikes, as they attempted to do in the city of San Francisco, universal disorder will be the outcome.

Unfortunately there are those on both sides of these controversies who are hoping that such a chaotic and anarchistic condition shall be reached as to insure the emergence of some kind of a dictatorship. Present activities would point to a dictatorship in which these wage earners would have little voice.

It should be remembered that the textile industry is the one great industry in the nation in which the application of the N. R. A. has improved mightily the wage earner's income and decreased his hours. We all rejoiced when this was done, although we knew that it would increase the price of all cotton goods. It has done so. But unfortunately also decreased the consumption, and with this impossible situation the wage earners are now fighting.

It behoves us all to study the facts very carefully so that we can exercise sane and intelligent judgment.

## Let's Tune Our Instruments

Christian Science Monitor

Recent unveiling of a memorial window to George Herbert, seventeenth-century English clercymen-poet, in his church at Bemerton, has recalled an incident that deserves to rank with the half-dozen or so others that have become a permanent source of encouragement.

Herbert was one day walking to Salisbury to take part in a music meeting, when he saw a poor carter whose horse had fallen. Herbert took off his coat, helped the man to unlead and then load his horse, and proceeded on his way. But when he arrived at Salisbury, says Isaac Walton, his biographer, "his musical friends began to wonder that Mr. George Herbert, which used to be so trim and clean, came into that company so soiled and discomposed; but he told them the occasion." Whereupon he was upbraided for disparaging himself "so dirty an employment," to which his answer was, "that the thought of what he had done would be music to him at midnight . . . and I praise God for this occasion. And now let us tune our instruments."

Where can one find a more superb or summary dismissal of the claims on man's attention of criticism and inharmony? "Let us tune our instruments" is advice that comes with especial force to the world today. Wars and rumors of wars, strikes and threats of strikes, misunderstandings, recriminations—these things try to thrust themselves into consciousness. Upon every individual devotes the responsibility to see that, so far as he is concerned, they do not succeed. Against the impregnable walls of love and charity to all they can make no more impression than did the criticisms of his friends for this occasion. And now let us tune our instruments.

## Music Hath Charms

San Francisco Chronicle

In his trust busting suit against Tin Pan Alley, Attorney General Cummings complains that the Society of Composers, Authors and Publishers controls 90 per cent of popular music. If there is any surprise in this to the public it is not that the control is so large as 90 per cent but that it is less than 100.

People who listen to current popular music of orchestra, phonograph and radio, discovering it to be exclusively of jiggety-jigging, with no differences distinguishable except the idiosyncrasies of certain performers, would naturally lean to the theory that there was only one song, and there would be nothing amazing if this were controlled by one person instead of a whole society.

If the 10 per cent outside the trust is any different from the 90 per cent within, by all means let it be trotted out.

### A PROTEST

(On learning that fish races are soon to be held in Baltimore)

I've backed a racing greyhound,  
I've watched a racing hare  
Dash 'round a track  
And hurry back  
As if he sped on air.  
I've bet on racing horses  
That had but small ambish.  
But never yet  
My eyes 've set  
Upon a racing fish.

A fish can't be conditioned.  
A fish cannot be trained.  
He can't be caught  
And coaxed and taught.  
Because he's feeble brained.  
You cannot trace his lineage.  
For, though you search around,  
At every brook  
And take a look  
His parents can't be found.  
  
I'm fond of competitions  
Of every kind and sort.  
But fish I'm sure  
Would lack allure  
And furnish little sport.  
It's quite all right to catch them  
If they are bass or trout.  
But in a race  
Or steeplechase  
All fish should be left out.

Reactions of a righteous citizen: (1) "Darn people who get government money for nothing;" (2) "I wonder how you go about it."

It's easy to tell a married man. He's the one panting three jumps behind a charge account.

The wives of great men often remind us that it is something else that keeps homely girls from getting married.

Fable: Once there was a fat person who could describe his breakfast without using the word "only."

MARRIAGE HAS SETTLED DOWN TO NORMAL WHEN NEITHER PARTY NOTICES THE OTHER'S COMPLAINING.

You can't blame the ladies for smoking. The only way to escape the onion flavor of a kiss is to eat onions yourself. There is one unfailing sign that people have their debt paid. They begin to pay the doctor, too.

Yet the dumbest people can think up an intelligence test to make the smartest seem dumb.

AMERICANISM: Raiding a wicked gambling place; releasing the swell patrons and holding the hired help who weren't gambling.

If you think of retiring, observe the hog. He also lies around until it is time to eat again.

Of course women have more foresight. At this season you never hear a man dropping hints about his winter coat.

Fair deal, fiddlesticks! You don't see the government paying writers not to produce so much.

MODERN COULDN'T ENDURE THE OLD-FASHIONED TWO-HOUR DINNER. THEY COULDN'T STOP SMOKING THAT LONG.

Collectors are people who spend their lives waiting for men who are expected back any minute.

The belief that Southerners say "you-all" when addressing two or more persons is wrong. They say "y'all."

A refectory table is just a dining table with three feet added to the length and \$180 to the price.

Others now predict Hitler's finish, but we shall wait until he begins to say "my army."

CORRECT THIS SENTENCE: "I HAD NO PART," SAID THE CANDIDATE, "IN STARTING THE VICIOUS LIES ABOUT MY OPPONENT."

## Thoughts On Modern Life

BY GLENN FRANK

### IS THE AGE OF PLENTY A MYTH?

The other day I indicated, in my comment on Robert R. Doane's attack on the idea that we are in an economy of surplus, that my repeated assertion that we are in an economy of plenty is far different from asserting that we are in an economy of surplus.

I am aware that, as an immediate problem for the producer, a surplus is a surplus regardless of what caused it. But political or economic statesmanship, concerned with the long-time development of the nation's life and enterprise, must reserve the term surplus production for goods not socially needed instead of using it for goods that are difficult to sell at the moment.

The inexplicable riddle of contemporary politics is the way in which leadership is formulating policies to fit an assumed surplus economy that does not exist, instead of searching for policies that will release the locked energies of the actual economy of plenty that does exist. We have at least learned how adequately to supply human need, even if we have not yet learned how adequately to translate existing human need into effective economic demand.

## Our Children

PAUSES

Pauses are essential elements in any scheme of action. The pause in a musical composition are not breaks, not mere empty spots. They are a part of the continuous whole and have their value in the composition. Without them the composition would not be the perfect thing it is.

These pauses occur in all expressions of life and growth. They occur in children and must be appreciated and understood if the child is to be interpreted correctly.

Little children show these pauses when they are learning to master a new process. They begin walking and for a time progress well. Then comes a pause in their advance. They make no further progress until one day, they seem to be charged with power and they begin again.

Learning to talk they repeat this pattern. For a time they add to their vocabulary easily and rapidly. Then they slow down. They are not interested in saying rhymes, repeating new words. This is a pause in the process of growth. Accept it as cheerfully as you did his spirit of growth. It will come in its normal end and the child will begin active growth again.

Adolescent children have marked pauses in growth. These annoy the teachers and parents beyond reason. The child has little or nothing to do with this pause. It is an expression of the process of natural growth. Wait patiently for it to pass and for growth to begin once again. Watch for the slowing down and be ready to change the plan of work. Other processes are in full swing while this one or that one pauses. Keep the lively ones going strong and wait for the resting ones to start anew.

The teacher will find that her class slows down after a burst of activity. The curve of achievement falls. Instead of drilling and scolding take another tack, a new approach, and let the old one fallow for a time. It will rise again and come into full bearing.

Children's behavior shows the same rhythmic rise and fall. For a time all goes well and then the gradual falling off. They pay less attention to the work in hand. Teeth are not brushed with enthusiasm.

Meening bridge, which they did.

The Santa Ana school board had refused to sell the building on the Fifth street school grounds because the highest price offered, \$337, seemed too little to receive for the building. It looked as though both the Fifth street and the Grand avenue school buildings would be kept on the grounds since insufficient sums were offered for them.

The King of Sweden officially recognized Dr. Frederick A. Cook as discoverer of the north pole, following announcement that Commander Robert E. Peary had duplicated the feat of reaching the pole. Peary had started on his expedition in July, 1908, just shortly after the date on which Cook claimed to have made his discovery. The Peary expedition was said to be the best equipped ever sent out from the United States.

A fine flow of heavy oil had been struck in No. 3 well of the Newport down town 1860 feet and had 169 feet of Bay Oil company. The well was oil sand. The oil was of heavy gravity but it was believed that it could be pumped without difficulty into it "sherry."

The word "sherry" came from Spain. Spaniards called their famous wine "jerez" and Britons spelled it "sheris"; later changed to "sherry".
